Environmental Club

Have you noticed the birds living on top of Perry Hall High School?

The birds are Turkey Vultures. Turkey Vultures use roosting sites like our roof to communicate with each other (a hang out spot).

Turkey vultures are scavengers whose main food source is dead animals. They use their sense of smell to find their food. When they are hanging out on our roof, they are telling one another about where food can be found. Turkey vultures will not hurt you. In fact, if they are attacked or harassed, they typically fly away or vomit on their attacker.
